◦ Cumulative GPA: 4.4/4.5 (3.91/4.0)

Korea University

BA, Political Science and BA, Economics

Mar 2018 - Feb 2022

Seoul, ROK

◦ Graduated with Great Honors

◦ Cumulative GPA: 4.29/4.5 (3.81/4.0)

Affiliation

◦ Minda de Gunzburg Center for European Studies Harvard

◦ The Institute for Quantitative Social Science at Harvard

Research Interests

Political Economy, Comparative Politics, Political Geography, Urban Politics, Inequality, Housing, Welfare State

Publications

Kang, Woo Chang, Jeeyoung Lee. 2022. "Women's Descriptive Representation and Political Participation: An Analysis of Korean Local Elections". *Korean Party Studies Review*. 21(1). p5-41. [in Korean]

(awarded *Best Research Paper of the Year Award from Korean Party Studies Review*)

Abstract: This research analyzes the effect of the number of female candidates and electees during Korean local elections on female turnout, revealing that female turnout increased when more female candidates ran for office and more female candidates were elected in the previous election. Based on results by elections, increased female turnout due to greater representation initially appeared in the 5th election, when mandatory gender quota laws were implemented.

Keywords: *descriptive representation, voting behavior, turnout, gender politics*

Working Papers

◦ "Government Partisanship and Credit Policy: Evidence from the Housing Market"

Abstract: This paper examines the effect of government partisanship on credit expansion by focusing on the housing sector, using two data sets of LTV (loan-to-value) limits. I show strong evidence that right-wing governments expand credit in the housing market, but the effect is heterogeneous across countries. Countries that are credit-permissive, where borrowing is easier, show a clear, positive association between right-wing cabinet dominance and LTV limits.

- "The Effect of Economic Shocks on Assets and Debt and Austerity Policy Preference: Evidence from a Survey Experiment" (Master's Thesis)

Abstract: This study explores the effect of economic shocks on assets and debt on austerity policy preferences. American respondents were randomly treated with information on how interest rate hikes can decrease asset value or increase debt burden and asked questions on austerity policy preferences with a constant sums question. The treatment decreases support for tax-increasing austerity. The findings also show that homeowners are tax-averse, and mortgages decrease support for tax increases even more.

Awards and Scholarships

- Krupp Foundation Dissertation Research Fellowship *Minda de Gunzburg Center for European Studies* (2026-2027)
- Best Research Paper of the Year Award *Korean Party Studies Review* (2022)
- Research Assistant Scholarship *Korea University* (2022)
- Bachelor Master Conjunction Program Scholarship *Korea University* (2022)
- National Scholarship for Humanities and Social Sciences *Ministry of Education* (2020-2021)

Grants

- Korea University Research Grant, for "The Effect of Economic Shocks on Assets and Debt and Austerity Policy Preference: Evidence from a Survey Experiment" (2022-2023)

Conference Presentations

- Korean Political Science Association "Government Partisanship Effect on Credit Policy: Evidence from the Housing Market" (2022)

Work Experience

RESEARCH ASSISTANT for Professor Alisha Holland **February 2026 -**
(Harvard University) Cambridge, USA

- Data collection of local governance structures and urban fragmentation

RESEARCH ASSISTANT for Professor Torben Iversen **August 2024 - May 2025**
(Harvard University) Cambridge, USA

- Data cleaning and analysis of political coalitions across democratic countries

RESEARCH ASSISTANT for Professor Hyeok Yong Kwon **Mar 2022 - Dec 2022**
(Korea University) Seoul, ROK

- Literature review on project funded by National Research Foundation(NRF) of Korea titled "Political Responses to External Economic Threats: Comparative Analysis of Social Policy Preferences and Voter Choice"
- Research on corruption cases of government-owned enterprises and bribery

RESEARCH ASSISTANT for Professor Woo Chang Kang **AUG 2021 – FEB 2022**
(Korea University) Seoul, ROK

- Collected and cleaned local elections voter turnout data with STATA
- Literature review on female representation, voter turnout, and political behavior
- Co-authored "Women's Descriptive Representation and Political Participation: An Analysis of Korean Local Elections" published by journal *Korean Party Studies Review*

Teaching Experience

TEACHING FELLOW for GOV97 Sophomore Tutorial Political Economy of Cities **Spring 2026**
(Harvard University) Cambridge, USA

TEACHING FELLOW for GOV1008 Introduction to Geographic Information Systems **Fall 2025**
(Harvard University) Cambridge, USA

Technical Skills

- Statistical Programs: R, STATA, MATLAB
- Tools: $\text{\LaTeX}$, ArcGIS Pro, Microsoft Office
- Survey Tools: Qualtrics, Survey Monkey, Amazon MTurk
